

## BEST PDA FOR DATA COLLECTION ON THE FIELD

- **Barcode Laser Scanner**
- **Camera color**
- **Bluetooth**
- **Wi-Fi 802.11 b/g**
- **GMS / GPRS / EDGE**
- **IP54**

This device has been developed to satisfy all the requirements for a simple use also by not technological expert users. PDA's equipment makes it the most practical tool for any kind of data collection work. This small and lightweight PDA features advanced data capture options and easy communication. The IP54 rated sealing ensures continued use and uptime by protecting against dust, moisture and extreme temperatures (-20°C / 50°C). PDA is available with GSM/GPRS/EDGE for the vocal use and data communication with mobile application. Wi-Fi connection allows an easy wireless synchronization with a local area network and Bluetooth technology makes easy to exchange data with other devices without any cable. The Compact Flash and Security Digital slots,

accessible to the user, enables a large variety of extension for mass storage or different kinds of interfaces. The PDA runs Windows CE.NET 5.0 for operating system with a powerful Intel X-scale PXA-270 500MHz processor. Besides, the bright Touch Screen Display and the ergonomic keypad are easy to use in both light and dark environments.

# SPECIFICATIONS
